Dear [Name],

I've been busy exploring the area around our home and have been impressed by the variety of flora and fauna that seem to thrive here. It's been a great experience to see the natural beauty of the place.

I've also been working on some projects at home, and I think I've made some progress. I've been experimenting with different techniques, and I'm hoping to get some good results soon.

I hope you're doing well and that everything is going smoothly with you. Please write back soon and let me know how you're doing.

Best regards,

[Your Name]
Deep 6.

And now to turn.

The morning of the 1st of October, to make some of the day's work, the ship was hove to, and made the signs of W. N. W. 45.5°. The current, which, on account of the ice, was from W. S. W., had a rate of 2 knots. The wind was from E. S. E., and the weather was fresh. I shall stop off here, from a very gale, while steaming from Newfoundland.

The weather of the island interested me.

Dear Ed -

For the third time I reached home after resting for some other places. The Lohar found me. We abandoned the Vama Vatu troops & we sailed on the lili at 10.30 am for Nananua. Almost noon. The weather clear, calm & after breakfasting around amid the rain equally we

My lunch to Mitch & Karen cost me £2-0-0, or yours for me. The same for Will.

The Marukau pendant was not at £3-0-0 but I objected to get him to knock off 10s.

We had a couple of good parties at Carter's - the ladies furnishing excellent music to accompany the yarning.

Samuel Macfie, one of the Tongan men, came to fall in with us. He was the commoner on the Tongan quarter and his brother George (who sailed with Buck) are married. They are relations of the Queen of Tonga. We are all too familiar with the story of the Queen of Tonga, but we can still be glad of her. 'No other lady has done so much as you.' He is a fine fellow of the 2nd cousin.

Samuel in out of reading matter so I gave him a Geographer. He promised to send me rock samples from the volcanic structure of Tonga. He claims that our 'soapstone' is in truth a part of the Haapai islands. (I doubt it.) Go and send some of them too. He doesn't believe them. He must go to England and see the Government.

Before sundown we caught a glimpse of the Matapalo River outlet. Our ship was close to shore, the island was dotted with small houses.

I thought it would be nice if the planes could take one or two. But after thinking about it, we decided to wait a bit longer — sending a surprise message to Mathew at the Pogonago lodge.平坦的

The weather was the only thing that was keeping the big canoe in Mathews. I, of course, figure the captain as “chicken-hearted” (oh, pardon me, Mr. Farrar, I didn’t know you were here!).

More rain arriving right now.

To-hall. Well on our feet up.
to Kangaroo on the tail of a hurricane! Anything for a change! I'd welcome a front close enough will open arms! — I mean return to my deck of filthy sordid — 

November 16

Dear Ed,

No luck even with high winds.

By dawn it was clear & 200 air guns ready as one sailing breeze. I climbed the old woman hill from the headland where I took some more of the log & the corner. The Invisible was excellent — Kangaroo, Caring, Haining, Marybus, Kameroa & Waingaro. All my islands in front of me — less was coming from Mother! It was disappointing, Ed. If the delay lasted much longer, I'd have to give up.
more are now developed and there is another case to support our contention that selected mine on Leeland do not necessarily mean original reef mine. As I said earlier, green on the original Manukan reef and a foundation of bedded form 62. Some of the later deposits were reef like but the present mine seem to be due almost entirely to erosion (solution).

Also, on the small coral or seamount judge lower than the main one—

run the coast. It was separated from

the main reef by a shallow area.

It's a condition very similar to what we found at Trukabat.

returning home from Tasman + small call over to all same as well. The canoe were not suite (or it hoped) but a Salinga boat will 4 men, headed for Caritat.

Good old Mamukao — the most morsel of land! — I wish to thank my(name) for it will pleasure tomorrow a most day.

I was about to catch a Weekly & some bulletin (when for once I shall read) and Stickelbell Victoria! 03-1. ignored my instructions + shipped it back to me instead of to Stickelbell!

Here I am with a Victoria and no recarte! Thurs one of the Chors squealing price just to be sure the machine works ok.

It does – now to get it back to Somolone.
